Working with a decorator will take up one of the largest pieces of planning in the process of coordinating your wedding. Lorraine Rodriguez, owner of Anything and Everything is the longest established Wedding Decorator in this region ensuring that her expertise helps you narrow down your décor needs efficiently and within your budget. With Lorraine's experience comes an understanding of the most current trends along with the knowledge of the décor elements that work the best at venues throughout the region. Lorraine not only provides décor but also offers a full floral service for wedding and events.

As summer has turned into Fall which will be followed closely behind by Winter, smaller weddings will be moved indoors. These intimate indoor affairs will lend themselves to beautiful settings inspired by the soft glow of candlelight and warmer antiqued shades of colour.

Celebrating seasonal colour themes makes winter weddings unique. Incorporating burgundies, bottle greens and amber tones automatically set off a rich composition for your décor. Using warm neutrals as a background, paired with jewelled tone accents will create a timeless winter wedding palette with a pop of photo worthy colour.

Taking weddings indoors means that ceiling treatments can become a soft focal point in your décor theme. The trend to go beyond hanging lanterns and fabric by incorporating the hanging of large floral showpieces, foliage covered hoops, moss covered branches or evergreen cascades can create a breathtaking ceiling treatment your guests will soon not forget. To add to the picture perfect and polished look, most couples continue to choose floor length linens and specialty chairs to finish off the décor detail with a polished look of sheer elegance.

Magical Music

We know now more than ever that music and dancing brings a vital element to wedding celebrations that stirs the soul and gets the party going. Goldline Entertainment understands that traditional music selections, dancing and guest entertainment has changed significantly in the past years. Many couples want to produce a fuller guest experience by including special effects, uplighting, interactive photo booths and fireworks.

Goldline Entertainment has been able to deliver on this trend by creating standard DJ, Photo Booth and Lighting Packages that allow for costs savings and reduces the number of vendors that couples have to work with. Traditional requests like the Chicken Dance, Macarena and Mambo 5 have tended to be limited as couples want a curated event with specific playlists for their smaller more intimate weddings.

With the trend of smaller weddings fewer clients are booking bands, but as the wedding guest list increases we often get asked to work alongside a band as the DJ to ensure a nonstop musical filled evening. Having a professional MC roll out the seamless flow of the celebration itinerary including professional introductions and smooth transitions between the formalities has become a wise choice for many couples as well. Eliminating the need to ask a family member or friend to take on this role ensures a smoothly run program that all guests can enjoy without any undue stress placed on anyone you have invited.

Beauty Blooms!

Swanky Affair has been creating beautiful weddings through imaginative décor for over 20 years in the Windsor-Essex region. With the new addition of their storefront floral shop location, Blumz Floral Boutique in LaSalle, Swanky Affair can now provide a full décor and floral service for their wedding clients.

Staying on top of trends is something that Dhyana, owner/operator of Swanky Affair is known for. Incorporating dried flowers into fresh floral bouquets is one trend that she loves! Many brides struggle between the choices to order fresh bouquets or dried/silk bouquets as many brides want a lasting memory of their wedding flowers. By incorporating dried flowers into bouquets, brides and their bridesmaids can have a lasting memento of the day that they can work into their home décor or press and frame.

Wedding photos have been literally dripping with décor greenery over the last number of seasons and this trend is not going away. Using greenery allows you to get more for your décor budget and also gives a lush feeling of outdoor beauty that is hard to match in your wedding day photos.

If your budget does not allow for fresh flowers, today's faux florals are incomparable in their beauty and realism. Many clients are surprised to find out that bouquets are made of silk when shown pictures of past weddings as the look of silks are more authentic than they have ever been. The keepsake you have is forever and that is a bonus!

Décor colour shades are trending to earthy neutral tones with pops of blue pastels inspired by the Netflix series Bridgerton. We can't wait to see what Season 2 has in store for us and the trends that will follow! Couples are moving away from gold chairs and requesting clear chairs complimented by glass pillars accompanied by clear vases and plates creating a neutral palette with pops of colour. Linen overlays and busy patterned tablecloths are out, as patternless classic linens bring the eye to beautiful floral accents that make for the stunning focal point of wedding décor themes.

Custom Suit Creations

At The Suit Shop Co. we know that many customers have a difficult body to fit and they find it hard to purchase a garment that is well proportioned to their particular body type. Many customers are also looking for a specific colour tone or fabric patterns that are challenging to find. Laz Dimitriou, owner/operator of The Suit Shop Co, knows that your time and your budget are both important to you. This he feels is the reason that he is seeing an upswing in the sales of custom-made suits as many customers want to ensure they are investing in long lasting fashion pieces that fit properly & comfortably.

A made to measure suit, or more popularly known as a custom-made suit solves the problem for most customers who are hard to fit or looking to create a fashion statement through unique fabric colours or patterns. These suits will fit better than any ready-made suit since they do not come in generic sizing. A custom-made suit is the ideal choice for those who want to indulge in a fashion item that is distinctive and elegant but will also enhance their individual style, physical appearance and personal taste. Having a garment that is tailored to your precise anatomical measurements is the final bonus that customers rave about for years after they have purchased a custom made garment. The pattern will be cut to your specific measurements and you are guaranteed a unique and individual suit that perfectly fits your body.

Laz loves to talk everything fashion and fashion trends and he invites you to come into his store on Erie Street to see what is new in men's fashions and to walk you through the steps of investing in a custom-made piece for yourself. Others recognize that those who wear a custom-made suit appreciate quality and are willing to invest in their appearance to make a good impression. This is exactly how you want to appear in your wedding day photos so that you are part of creating timeless images that won't be dated in the years to come.

Fabulous Transformations

There is no doubt that the pandemic has changed many things in our lives, from the simple everyday routines we took for granted to the most memorable days in life, like weddings. At It's Your Day Bridal we have been given the privilege of working closely with many brides throughout this change in time. It seems that the future of weddings will evolve, as couples embrace the intimacy of smaller affairs that so many are enjoying during this time. With the change to more intimate gatherings, brides are paying closer attention to the design & details of their celebrations. We have taken note that no matter how many guests are in attendance, whether it is an elopement or a Micro-Wedding, one thing hasn't changed...Brides want to feel and look beautiful in the perfect wedding dress.

We are also seeing some Brides planning multiple weddings or hosting an anniversary reception for their 1-year celebration. These options allow them to maximize their guest list to ensure those they hold dear are part of the celebration of their love. Downsizing the guest list has meant that brides have redirected a larger part of their budget towards the dress of their dreams.

One of the new trends we love are brides who are creating two looks using accessories: a traditional bridal look for the ceremony and a more contemporary Boho feel for the celebration—many of which have been outdoors. Accessories are the perfect way to change the aesthetics of a dress and at It's Your Day Bridal our extensive line of accessories gives our customers a range of options for the look they want.

A beautiful over skirt can be added to a slim fitted gown, which offers two completely different looks. Simple Mikado or Satin dresses give a blank canvas to create a classic yet modern feel. We are seeing unique accessories, such as statement earrings, hair vines and detachable off-the-shoulder or billowy sleeves added to these dresses to customize the Bride's look. Popular as well are art deco laces that are paired with hats, boots and dried earthy tone flowers lending a Boho feel and creating the perfect Instagram worthy photo.

No matter the fashion statement that you want to make on your wedding day, the staff at It's Your Day Bridal can help you pull it all together.

Unique Restorations

The Mill is an industrial boutique venue offering an intimate space for weddings and special occasions. We are currently undergoing renovations to rejuvenate the space, with 2023 as the grand opening.

The Mill was built in the heart of Harrow in the 1940's. It has always been a dream for Jeff and Jessie, owners of The Mill, to restore the space and turn it back into the focal point of the community as it once was. Jeff & Jessie have a passion for bringing old properties back to life. This project and building are extra special to them being in the small town where they both grew up. They can't wait to share this unique venue for future celebrations and the beginning of a love story for couples getting married.

This venue is perfectly suited for couples looking for an industrial and historic space with natural elements, who also want to offer an elevated experience to their guests. When you host your event at The Mill, the space is yours - exclusively, indoors and outdoors. Wedding trends have been moving towards smaller intimate gatherings in uniquely styled spaces and that is exactly what The Mill will offer.

A Hidden Gem

St Clair College Centre for the Arts offers many options for hosting your wedding celebration but one of their best kept secrets is located on their 4th floor and boasts three distinct spaces for the price of one.

The Viewpoint Terrace and International Ballroom offer both an indoor space and outdoor balcony overlooking the stunning Windsor waterfront and Detroit skyline. When you book this space no other client will be afforded the use of the Terrace, it will be yours exclusively! The bonus is the Port of Windsor Room which is a perfect hideaway for the bride to do last minute touchups and your wedding party to meet and prepare before your ceremony. This room also features a small outdoor terrace which is a perfect getaway for your photographer to take some pictures of the two of you in a more private setting.

The Viewpoint Terrace is a larger outdoor space with views of the Detroit skyline, water and the beautiful parks below. Many couples are finding this the ideal setting for their wedding ceremonies as it offers two preferred set up options. To compete with any background noise in this outdoor setting, a Ceremony Audio Package includes a lapel microphone for the officiant and a cordless microphone and speakers. The retractable awnings can be extended as needed to block the sun or light drizzle. Once the ceremony is complete, staff can quickly change over the Viewpoint Terrace with cocktail tables, for an intimate Cocktail Hour including Butler passed Hors d'oeuvres and champagne to enhance the elegance of the evening. Additionally couples love the incomparable, sunset memories captured by photographers on the Viewpoint Terrace.

Once you are ready to move inside for dinner, The International Ballroom is the ideal space for 100-170 guests to be seated. Three dividing walls open to create a full-size ballroom that sits adjacent to the Viewpoint Terrace. The hardwood flooring in the first room offers a large dancefloor. If your layout requires a dance floor in front of the Head Table, a smaller dance floor can be setup here as well. As your guests take their seats they will enjoy a delicious meal prepared in the 2nd floor kitchen by Executive Chef Carmine Incitti and his Team. A Chef is assigned to your floor to execute all details of your wedding meal flawlessly.

Weddings are a celebration of love and people and at St Clair College Centre for the Arts we are excited to meet with you to discuss what best options we can offer to start the planning of your celebration. Your Vision is Our Passion!
